

## Fix Bugs of the Application

<https://github.com/mohanuday/bugfix.git>

## Sprints planning and Task completion

The project is planned to be completed in 1 sprint. Tasks assumed to be completed in the sprint are:

- Add the missing source code to the application based on searching technique. Find the appropriate comments to code for the searching technique.
- Write source code for sorting the predefined array and ensure the functionality of the application. Find the appropriate comments to code for sorting the predefined array.
- You can download the boilerplate code by executing the command below in your **git bash**.
